

Christian Yahir Navarro Chan

Junior Full Stack Developer | React, Node.js

Yucatán, México | christiannavarro1203@gmail.com | +52 9971157868 |  [Christian](#)

Personal website: <https://portafoliopersonal-xi.vercel.app/>

Professional Summary

Software Development and Management Engineer with experience in Full Stack web development. Hands-on expertise in the JavaScript/TypeScript ecosystem (React, Node.js, Express) and relational databases (MySQL, PostgreSQL). Experience collaborating in companies and software consultancies. Focused on building efficient, responsive interfaces and scalable RESTful APIs.

Work Experience

Frontend Developer (Internship) | Walook

January 2025 – April 2025

- Developed reusable and modular UI components with React.js and Bootstrap for a supermarket private label management platform.
- Implemented dynamic forms, interactive tables, and complex data validations consuming RESTful APIs.
- Fixed software bugs (debugging) and implemented visual and functional improvements to the existing system.
- Collaborated in an agile environment using Jira for task tracking and Git/GitHub for collaborative workflows.

Frontend Developer (Internship) | Jomat Consultores

May 2023 – August 2023

- Co-developed the frontend interface for a local e-commerce platform using Angular.
- Designed and implemented dynamic views and components based on UI wireframes in Figma.
- Managed application state and integrated client-side business logic.

Full Stack Development and RESTful APIs / Personal / Freelance Projects

January 2023 – Present

- Development of static and dynamic websites with API consumption.
- Design and implementation of RESTful APIs with user authentication systems, role management, and complex CRUD operations.
